**Tokyo – June 10, 2022** – Global Trust Networks Co., Ltd. (GTN), a leading provider of support services for foreigners in Japan, has announced the launch of GTN Care, a new service that comprehensively supports foreign residents’ lifestyles in Japan, starting on June 10. The service includes two existing services, GTN Assistants (living consultations) and GTN Mobile (telecommunications), as well as the long-awaited compensation service, providing a full package of essential services for those who live in or are planning to live in Japan for 3,980 yen (tax-included) per month.

“We have launched GTN Care at a time when the number of foreigners entering Japan has been increasing due to the easing of Japan’s entry restrictions in March.” said Hiroyuki Goto, Representative Director and President of GTN. “It will help them live in Japan with confidence and peace of mind. In particular, this full package provides parents of international students with a sense of security knowing that their children have someone they can talk to if they have any problems in everyday situations, that they have reliable means of communication, and that they can receive compensation for hospital expenses and liability for damages should they be involved in an accident. By combining the compensation service with our existing offerings, GTN Care can provide a wider range of services at a reasonable price. We already handle eighty thousand consultations with foreign residents per year, which positions us perfectly to offer this new service.”

GTN Care includes:

- **GTN Assistants:** a 24/7 multilingual support chat app (19 languages)
- **GTN Mobile:** a mobile service exclusively for foreigners (with 7 or 20 GB of data)
- **Compensation service:** hospital expense compensation, liability compensation, etc. (as an included ancillary service)

### **About GTN**

With "Making Your Stay in Japan Great" as its vision, GTN has since its establishment consistently specialized in providing comprehensive support for foreigners, especially in the area of living environments. Starting with its rent guarantor business, GTN has developed a wide variety of unique services in such areas as real estate, employment support, cell phones, and credit cards. The company's employees, 70% of whom are foreigners from about 20 different countries, bring a deep understanding of linguistic and cultural differences to their everyday work.
